Getmore.OS

COMMERCIAL PROPOSAL & TELEPHONY AI IMPLEMENTATION SCOPE

Prepared By: Getmore.OS (getmoreos.in)
Client: Mittal Palms, Jakkur
Project: 3.2 Acre Residential Development
Date: October 2026
Status: Ready for Execution

> **Executive Purpose:** Deploy an autonomous, human-sounding inbound Voice AI Property Advisor (**"Priya"**) dedicated exclusively to **Mittal Palms, Jakkur, North Bangalore**. The agent answers 100% of incoming prospective buyer calls within 1 ring, conducts structured BANT qualification, segments prospects into high-intent and filtered buckets, coordinates site visit walkthroughs with **Raghavendra (9945577935)**, and continuously improves after every conversation.

1. Core Capabilities: Dual-Bucket Prospecting & Self-Learning

✓ Good Prospects Bucket (Immediate Action)

- **Verified Budget:** Aligned with 2 BHK (₹1.15 Cr+) or 3 BHK (₹1.70 Cr+).
- **Immediate Possession:** Seeking ready-to-move homes in Jakkur.
- **Walkthrough Scheduled:** Locked in weekend site visit with **Raghavendra**.
- **Instant Alert:** Direct WhatsApp & CRM ping to sales closers.

⚠ Bad Prospects Bucket (Auto-Filtered)

- **Budget Mismatch:** Inquiries seeking 3 BHK under ₹50 Lakhs.
- **Rental & PG Hunters:** Looking for leases rather than property purchase.
- **Unserviceable Corridors:** Refusing North Bangalore commute.
- **Saves 200+ Sales Hours:** Polite handling without wasting sales rep time.

🧠 Continuous Post-Call Self-Training Flywheel (Train-After-Every-Call)

- **Autonomous Transcript Analysis:** The moment each phone call concludes, the LLM analyzes buyer questions, sentiment, objections, and negotiation attempts.
- **Dynamic Learning Database:** New objections (e.g. Kaveri water, airport transit time, payment milestones) are committed into the active intelligence memory in real time.
- **Few-Shot In-Context Injection:** By the very next phone call, Priya automatically adopts the optimal answers learned from previous calls—making the agent progressively sharper and more persuasive every single day.

2. Voice Persona: Sarvam AI Bulbul (Authentic Bangalore Dialect)

To eliminate synthetic robotic tones, the voice agent is powered by **Sarvam AI Bulbul v4-flash** (Bangalore frontier voice lab):

- **Simran (Conversational Sales Persona):** Energetic, warm, and articulate Indian English tone.

- **Native Real Estate Phonetics:** Flawless pronunciation of local Bangalore terminology (*Jakkur, Hebbal, Manyata Tech Park, Airport Road, Crores, Lakhs, 2 BHK, 3 BHK*).
- **Hardware Barge-In Support:** Sub-50ms clear buffer flush allowing callers to interrupt naturally.

Getmore.OS Voice AI — Commercial Schedule

3. One-Time Build & Setup Fee

Fixed One-Time Build & Telephony Deployment
Complete end-to-end knowledge base ingestion, PBX integration, Sarvam AI tuning & CRM sync. **₹50,000**

Includes: Mittal Palms 3.2 Acre inventory setup (1235–1980 sq.ft) • 5-Question BANT qualification matrix • Dual-bucket lead classification engine • Continuous post-call self-learning loop • Virtual telephony PBX trunking • Google Sheets & SQLite live audit console • Raghavendra site visit dispatch routing.

4. Monthly Maintenance & Infrastructure Plans

All plans are calculated based on an **average call duration of 3 minutes per call**, covering 100% of inbound telephony, Deepgram STT, Sarvam AI neural synthesis, Groq LLM intelligence, server hosting, and database maintenance:

Plan Tier	Monthly Call Volume	Total Talk Time	Monthly Retainer	Effective Cost / Call	Features & SLA
Tier 1 — Standard	**2,000 Calls**	6,000 Minutes	**₹34,000 / mo**	₹17.00 / call	24/7 Telephony, Sarvam AI Bulbul, Lead Bucketing, Google Sheet Sync, Standard Support
Tier 2 — Growth Recommended	**3,000 Calls**	9,000 Minutes	**₹44,000 / mo**	₹14.66 / call	Everything in Tier 1 + Bi-weekly Prompt Optimization, WhatsApp Lead Alerts, Priority SLA
Tier 3 — Scale High Volume	**4,000 Calls**	12,000 Minutes	**₹54,000 / mo**	₹13.50 / call	Everything in Tier 2 + Dedicated Account Manager, Multi-Number Routing, Weekly Intelligence Audit

* Overage Calls beyond plan limits are billed at flat **₹12 per 3-minute call**. No rollover of unused minutes.

5. Financial Comparison: Voice AI vs. Human Telecallers

For a project receiving **3,000 calls per month** (approx. 100–150 calls/day across peak hours & weekends):

Evaluation Parameter	Human Telecaller Team (3–4 Staff)	Getmore.OS Voice AI (Tier 2)
Monthly Cost	₹85,000 – ₹1,10,000 / month (Payroll + bonuses)	**₹44,000 / month (Flat)**
Availability	9:30 AM – 6:30 PM (Misses evenings & Sundays)	**24/7/365 (Instant pick-up within 1 ring)**
Consistency & CRM Logging	Manual data entry, delayed or missed leads	**100% Automated, instant Good/Bad bucketing**
Monthly Net Savings	Baseline Cost	**Save ₹41,000 – ₹66,000 every single month**

6. Implementation Timeline & Milestone Terms

- **Timeline:** Full deployment within **5 to 7 business days** from kickoff.
- **Payment Milestones:** 50% upfront on project commencement; 50% upon successful live pilot call demonstration.
- **Monthly Retainer:** Billed at the beginning of each billing cycle; 30-day notice for tier adjustments.
